Introduction Where Opportunity Meets Talent

The TriMetrix® EQ Coaching Report was designed to increase the understanding of an individual's talents. The report provides insight to three distinct areas: behaviors, driving forces and emotional intelligence. Understanding strengths and weaknesses in each of the three areas will lead to personal and professional development and a higher level of satisfaction.

The following is an in-depth look at your personal talents in the five main sections:

Behaviors

This section of the report is designed to help you attain a greater knowledge of yourself as well as others. The ability to interact effectively with people may be the difference between success and failure in your work and personal life. Effective interaction starts with an accurate perception of oneself.

Driving Forces

This section of the report provides information on the why of your actions, which with application and coaching, can tremendously impact your valuing of life. Once you know the motivations that drive your actions, you will immediately be able to understand the causes of conflict.

Integrating Behaviors And Driving Forces

This section of the report will help you blend the how and the why of your actions. Once you can understand how your behaviors and driving forces blend together, your performance will be enhanced and you will experience an increase in satisfaction.

Emotional Intelligence Section

This section of the report provides information on your emotional intelligence, which with application and coaching, can impact the way you respond to emotionally charged situations. In turn you will increase your performance and decision making.

Blending Behaviors, Driving Forces And EQ

This section will illustrate the impact your Emotional Intelligence has on your core behavioral style as well as your top four driving forces.

Introduction Behaviors Section

Behavioral research suggests that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment.

A person's behavior is a necessary and integral part of who they are. In other words, much of our behavior comes from "nature" (inherent), and much comes from "nurture" (our upbringing). It is the universal language of "how we act," or our observable human behavior.

In this report we are measuring four dimensions of normal behavior. They are:

- How you respond to problems and challenges.
- How you influence others to your point of view.
- How you respond to the pace of the environment.
- How you respond to rules and procedures set by others.

This report analyzes behavioral style; that is, a person's manner of doing things. Is the report 100% true? Yes, no and maybe. We are only measuring behavior. We only report statements from areas of behavior in which tendencies are shown. To improve accuracy, feel free to make notes or edit the report regarding any statement from the report that may or may not apply, but only after checking with friends or colleagues to see if they agree.

*"All people exhibit all four behavioral factors in varying degrees of intensity."
—W.M. Marston*

Communication Tips

This section provides suggestions on methods which will improve Mike's communications with others. The tips include a brief description of typical people with whom he may interact. By adapting to the communication style desired by other people, Mike will become more effective in his communications with them. He may have to practice some flexibility in varying his communication style with others who may be different from himself. This flexibility and the ability to interpret the needs of others is the mark of a superior communicator.

When communicating with a person who is dependent, neat, conservative, perfectionist, careful and compliant:

- Prepare your "case" in advance.
- Stick to business.
- Be accurate and realistic.

Factors that will create tension or dissatisfaction:

- Being giddy, casual, informal, loud.
- Pushing too hard or being unrealistic with deadlines.
- Being disorganized or messy.

When communicating with a person who is ambitious, forceful, decisive, strong-willed, independent and goal-oriented:

- Be clear, specific, brief and to the point.
- Stick to business.
- Be prepared with support material in a well-organized "package."

Factors that will create tension or dissatisfaction:

- Talking about things that are not relevant to the issue.
- Leaving loopholes or cloudy issues.
- Appearing disorganized.

When communicating with a person who is patient, predictable, reliable, steady, relaxed and modest:

- Begin with a personal comment--break the ice.
- Present your case softly, nonthreateningly.
- Ask "how?" questions to draw their opinions.

Factors that will create tension or dissatisfaction:

- Rushing headlong into business.
- Being domineering or demanding.
- Forcing them to respond quickly to your objectives.

When communicating with a person who is magnetic, enthusiastic, friendly, demonstrative and political:

- Provide a warm and friendly environment.
- Don't deal with a lot of details (put them in writing).
- Ask "feeling" questions to draw their opinions or comments.

Factors that will create tension or dissatisfaction:

- Being curt, cold or tight-lipped.
- Controlling the conversation.
- Driving on facts and figures, alternatives, abstractions.

Descriptors

Based on Mike's responses, the report has marked those words that describe his personal behavior. They describe how he solves problems and meets challenges, influences people, responds to the pace of the environment and how he responds to rules and procedures set by others.

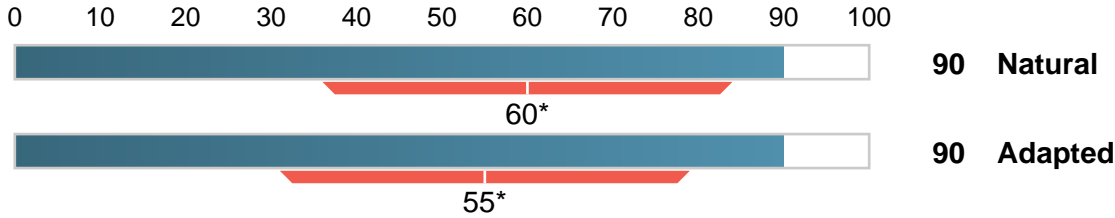

Driving	Inspiring	Relaxed	Cautious
Ambitious	Magnetic	Passive	Careful
Pioneering	Enthusiastic	Patient	Exacting
Strong-Willed	Persuasive	Possessive	Systematic
Determined	Convincing	Predictable	Accurate
Competitive	Poised	Consistent	Open-Minded
Decisive	Optimistic	Steady	Balanced Judgment
Venturesome	Trusting	Stable	Diplomatic
Dominance	Influencing	Steadiness	Compliance
Calculating	Reflective	Mobile	Firm
Cooperative	Factual	Active	Independent
Hesitant	Calculating	Restless	Self-Willed
Cautious	Skeptical	Impatient	Obstinate
Agreeable	Logical	Pressure-Oriented	Unsystematic
Modest	Suspicious	Eager	Uninhibited
Peaceful	Matter-of-Fact	Flexible	Arbitrary
Unobtrusive	Incisive	Impulsive	Unbending

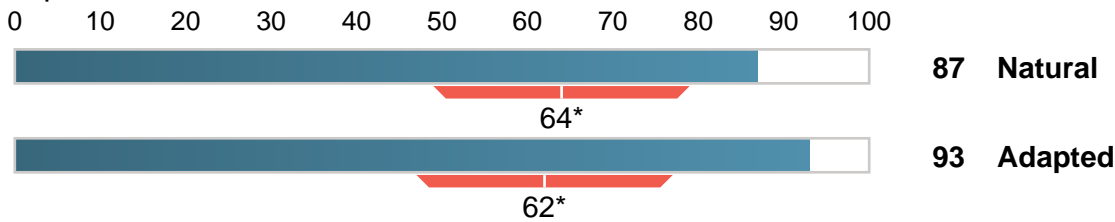

Behavioral Hierarchy

Your observable behavior and related emotions contribute to your success on the job. When matched to the job, they play a large role in enhancing your performance. The list below ranks your behavioral traits from the strongest to the weakest.

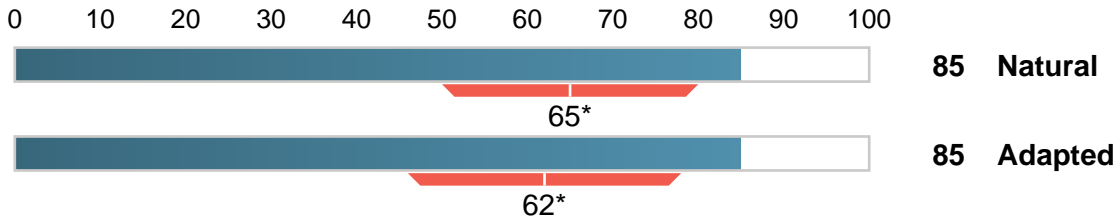

1. Interaction - Frequently engage and communicate with others.

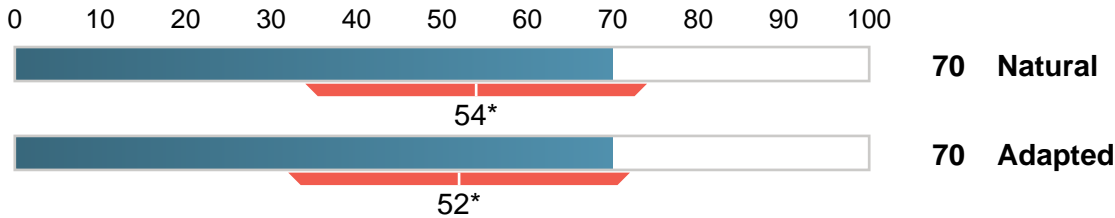

2. Customer-Oriented - Identify and fulfill customer expectations.

3. People-Oriented - Build rapport with a wide range of individuals.

4. Versatile - Adapt to various situations with ease.

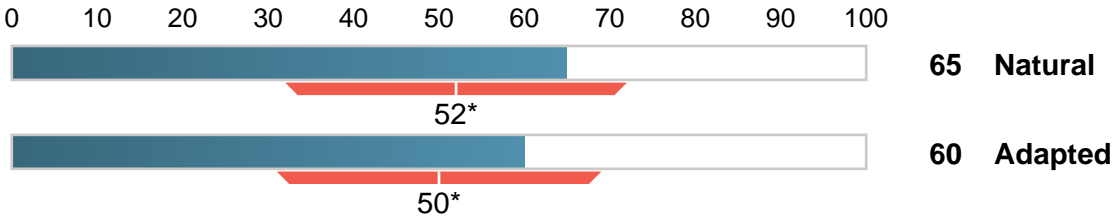

* 68% of the population falls within the shaded area.

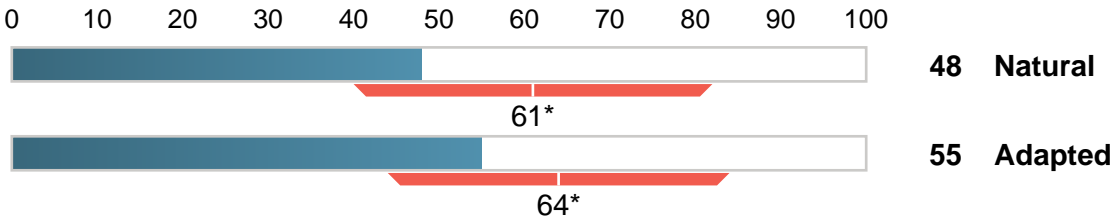

Behavioral Hierarchy Continued

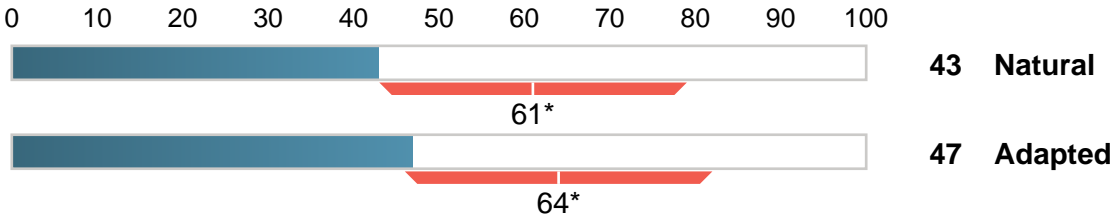

5. Frequent Change - Rapidly shift between tasks.

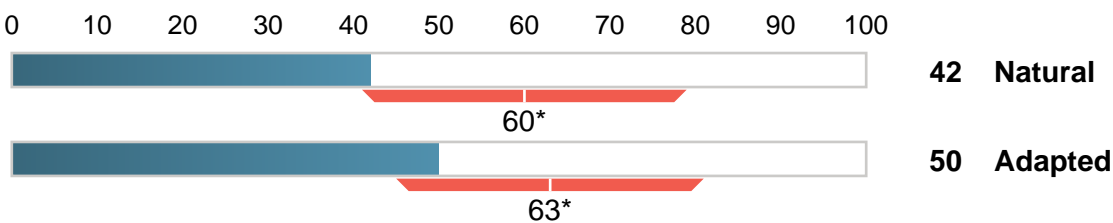

6. Consistent - Perform predictably in repetitive situations.

7. Persistence - Finish tasks despite challenges or resistance.

8. Following Policy - Adhere to rules, regulations, or existing methods.

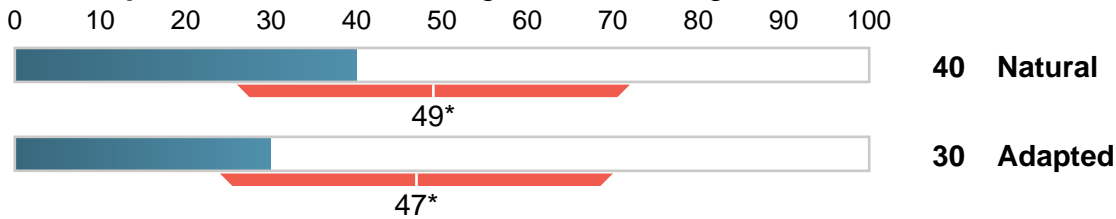

* 68% of the population falls within the shaded area.

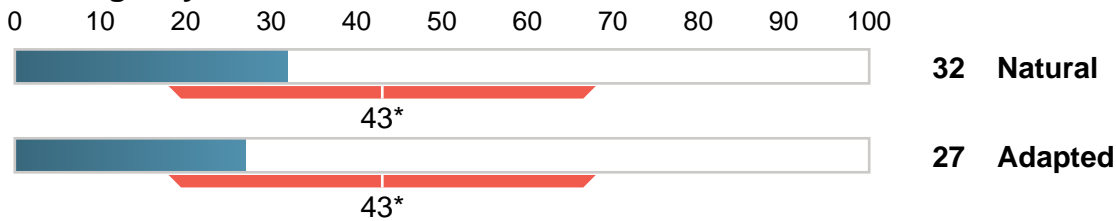

Behavioral Hierarchy Continued

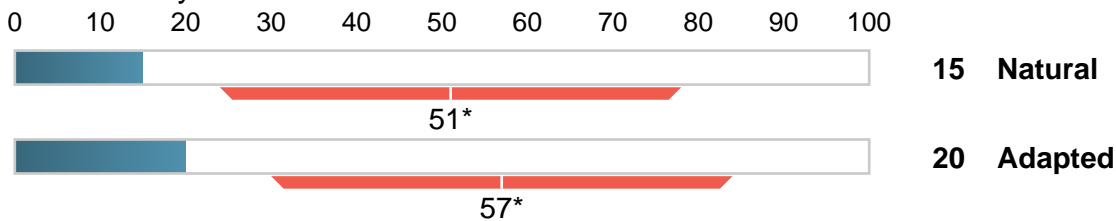

9. Competitive - Want to win or gain an advantage.

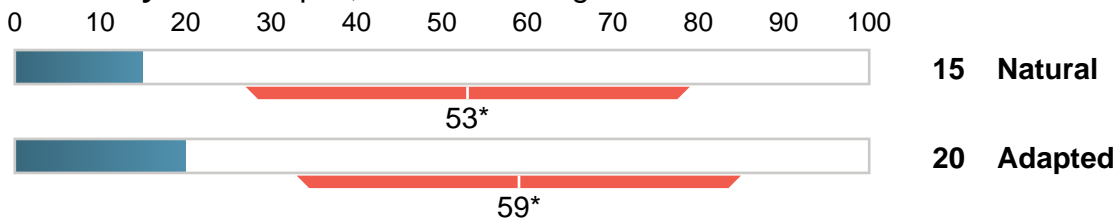

10. Urgency - Take immediate action.

11. Organized Workplace - Establish and maintain specific order in daily activities.

12. Analysis - Compile, confirm and organize information.

SIA: 25-88-66-28 (15) SIN: 38-86-68-15 (15)
* 68% of the population falls within the shaded area.

The Success Insights® Wheel

The Success Insights® Wheel is a powerful tool popularized in Europe. In addition to the text you have received about your behavioral style, the Wheel adds a visual representation that allows you to:

- View your natural behavioral style (circle).
- View your adapted behavioral style (star).
- Note the degree you are adapting your behavior.
- If you filled out the Work Environment Analysis, view the relationship of your behavior to your job.

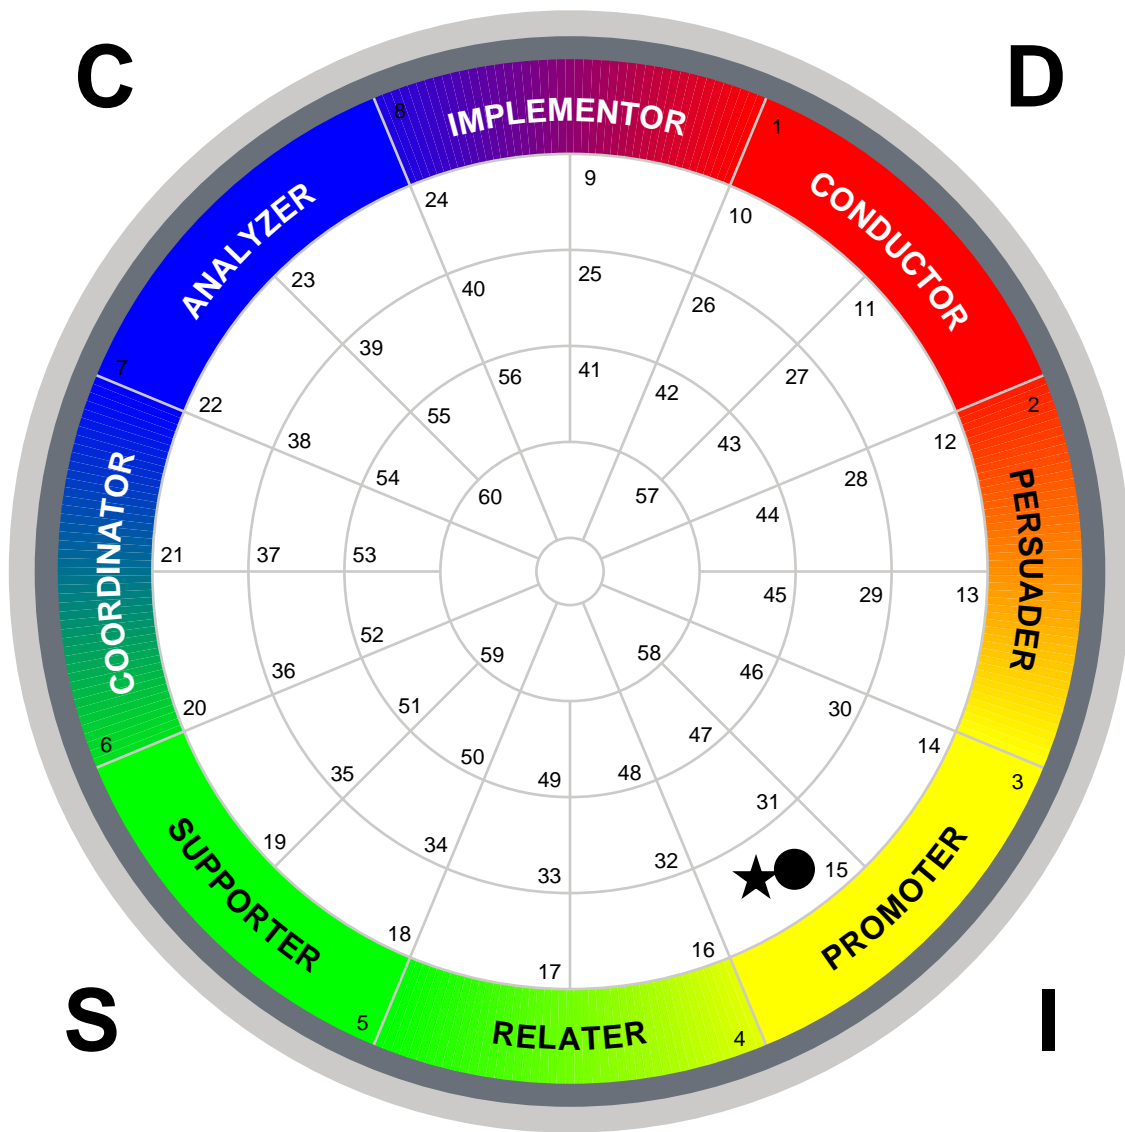

Notice on the next page that your Natural style (circle) and your Adapted style (star) are plotted on the Wheel. If they are plotted in different boxes, then you are adapting your behavior. The further the two plotting points are from each other, the more you are adapting your behavior.

If you are part of a group or team who also took the behavioral assessment, it would be advantageous to get together, using each person's Wheel, and make a master Wheel that contains each person's Natural and Adapted style. This allows you to quickly see where conflict can occur. You will also be able to identify where communication, understanding and appreciation can be increased.

Understanding Your Driving Forces

Eduard Spranger first defined six primary types or categories to define human motivation and drive. These six types are Theoretical, Utilitarian, Aesthetic, Social, Individualistic and Traditional.

With TTISI's additional insights into Spranger's original work, the 12 Driving Forces® came to life. The 12 Driving Forces® are established by looking at each motivator on a continuum and describing both ends. All of the twelve descriptors are based on six keywords, one for each continuum. The six keywords are Knowledge, Utility, Surroundings, Others, Power and Methodologies.

You will learn how to explain, clarify and amplify some of the driving forces in your life. This report will empower you to build on your unique strengths, which you bring to work and life. You will learn how your passions from 12 Driving Forces® frame your perspectives and provide the most accurate understanding of you as a unique person.

Please pay careful attention to your top four driving forces, as they highlight what most powerfully moves you to action. As you examine the next tier of four driving forces, you'll recognize they may have strong pull for you, but only in certain situations. Finally, when reviewing the bottom four driving forces, you will identify your varying levels of indifference or total avoidance.

Once you have reviewed this report you will have a better grasp of one of the key areas in the Science of Self™ and will:

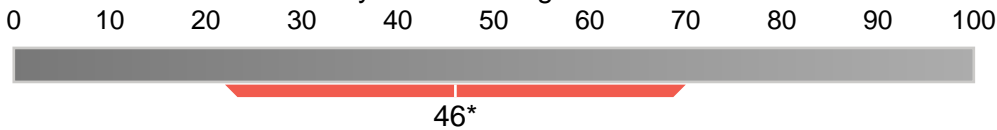

- Identify and understand your unique Driving Forces
- Understand and appreciate the Driving Forces of others
- Establish methods to recognize and understand how your Driving Forces interact with others to improve communication

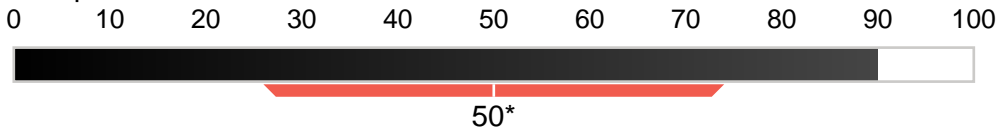

Primary Driving Forces Cluster

Your top driving forces create a cluster of drivers that move you to action. If you focus on the cluster rather than a single driver you can create combinations of factors that are very specific to you. The closer the scores are to each other the more you can pull from each driver. Think about the driver that you can relate to most and then see how your other primary drivers can support or complement to create your unique driving force.

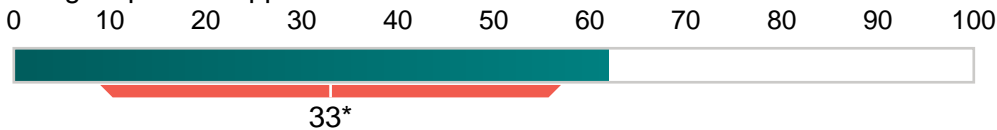

1. Receptive - People who are driven by new ideas, methods and opportunities that fall outside a defined system for living.

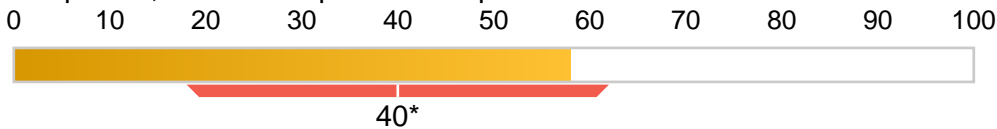

2. Commanding - People who are driven by status, recognition and control over personal freedom.

3. Altruistic - People who are driven to assist others for the satisfaction of being helpful or supportive.

4. Selfless - People who are driven by completing tasks for the sake of completion, with little expectation of personal return.

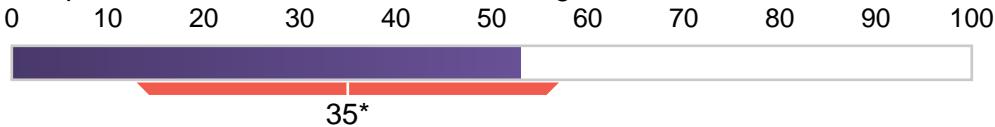

Situational Driving Forces Cluster

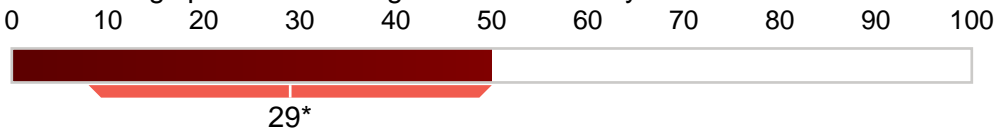

Your middle driving forces create a cluster of drivers that come in to play on a situational basis. While not as significant as your primary drivers, they can influence your actions in certain scenarios.

5. Harmonious - People who are driven by the experience, subjective viewpoints and balance in their surroundings.

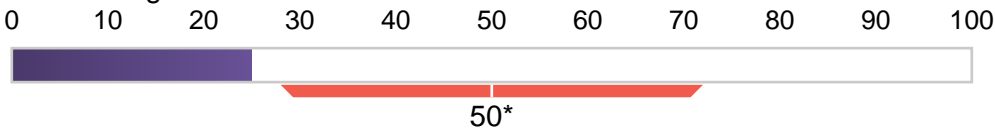

53

6. Instinctive - People who are driven by utilizing past experiences, intuition and seeking specific knowledge when necessary.

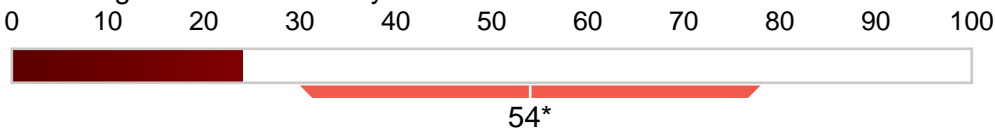

50

7. Objective - People who are driven by the functionality and objectivity of their surroundings.

25

8. Intellectual - People who are driven by opportunities to learn, acquire knowledge and the discovery of truth.

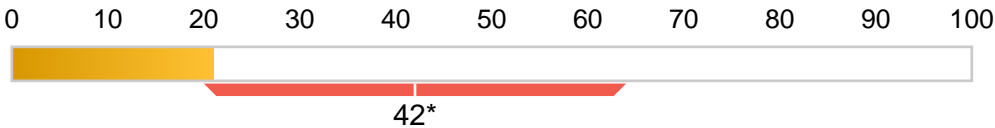

24

Indifferent Driving Forces Cluster

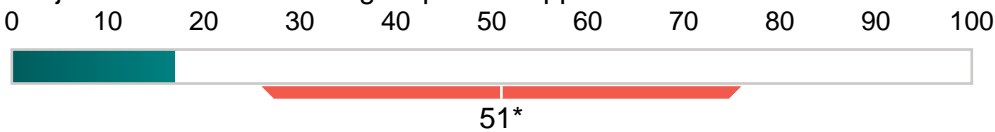

You may feel indifferent toward some or all of the drivers in this cluster. However, the remaining factors may cause an adverse reaction when interacting with people who have one or more of these as a primary driving force.

9. Resourceful - People who are driven by practical results, maximizing both efficiency and returns for their investments of time, talent, energy and resources.

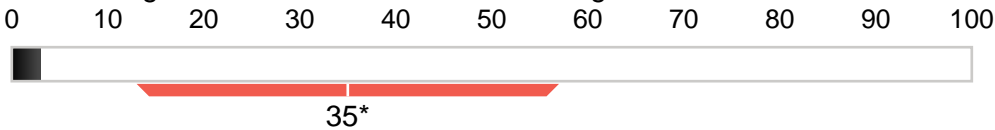

21

10. Intentional - People who are driven to assist others for a specific purpose, not just for the sake of being helpful or supportive.

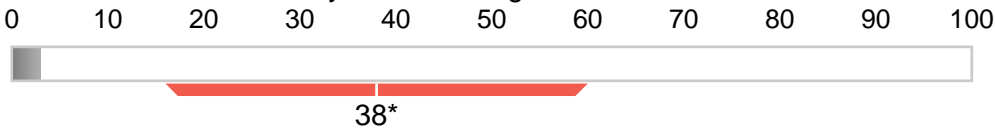

17

11. Collaborative - People who are driven by being in a supporting role and contributing with little need for individual recognition.

0

12. Structured - People who are driven by traditional approaches, proven methods and a defined system for living.

0

Areas for Awareness

For years you have heard statements like, "Different strokes for different folks," "to each his own," and "people do things for their own reasons, not yours." When you are surrounded by people who share similar driving forces, you will fit in with the group and be energized. However, when surrounded by people whose driving forces are significantly different from yours, you may be perceived as out of the mainstream. These differences can induce stress or conflict.

This section reveals areas where your driving forces may be outside the mainstream and could lead to conflict. The further above the mean and outside the mainstream you are, the more people will notice your passion about that driving force. The further below the mean and outside the mainstream you are, the more people will notice your avoidance or indifference regarding that driving force. The shaded area for each driving force represents 68 percent of the population or scores that fall within one standard deviation above or below the national mean.

Norms & Comparisons Table - Norm 2017

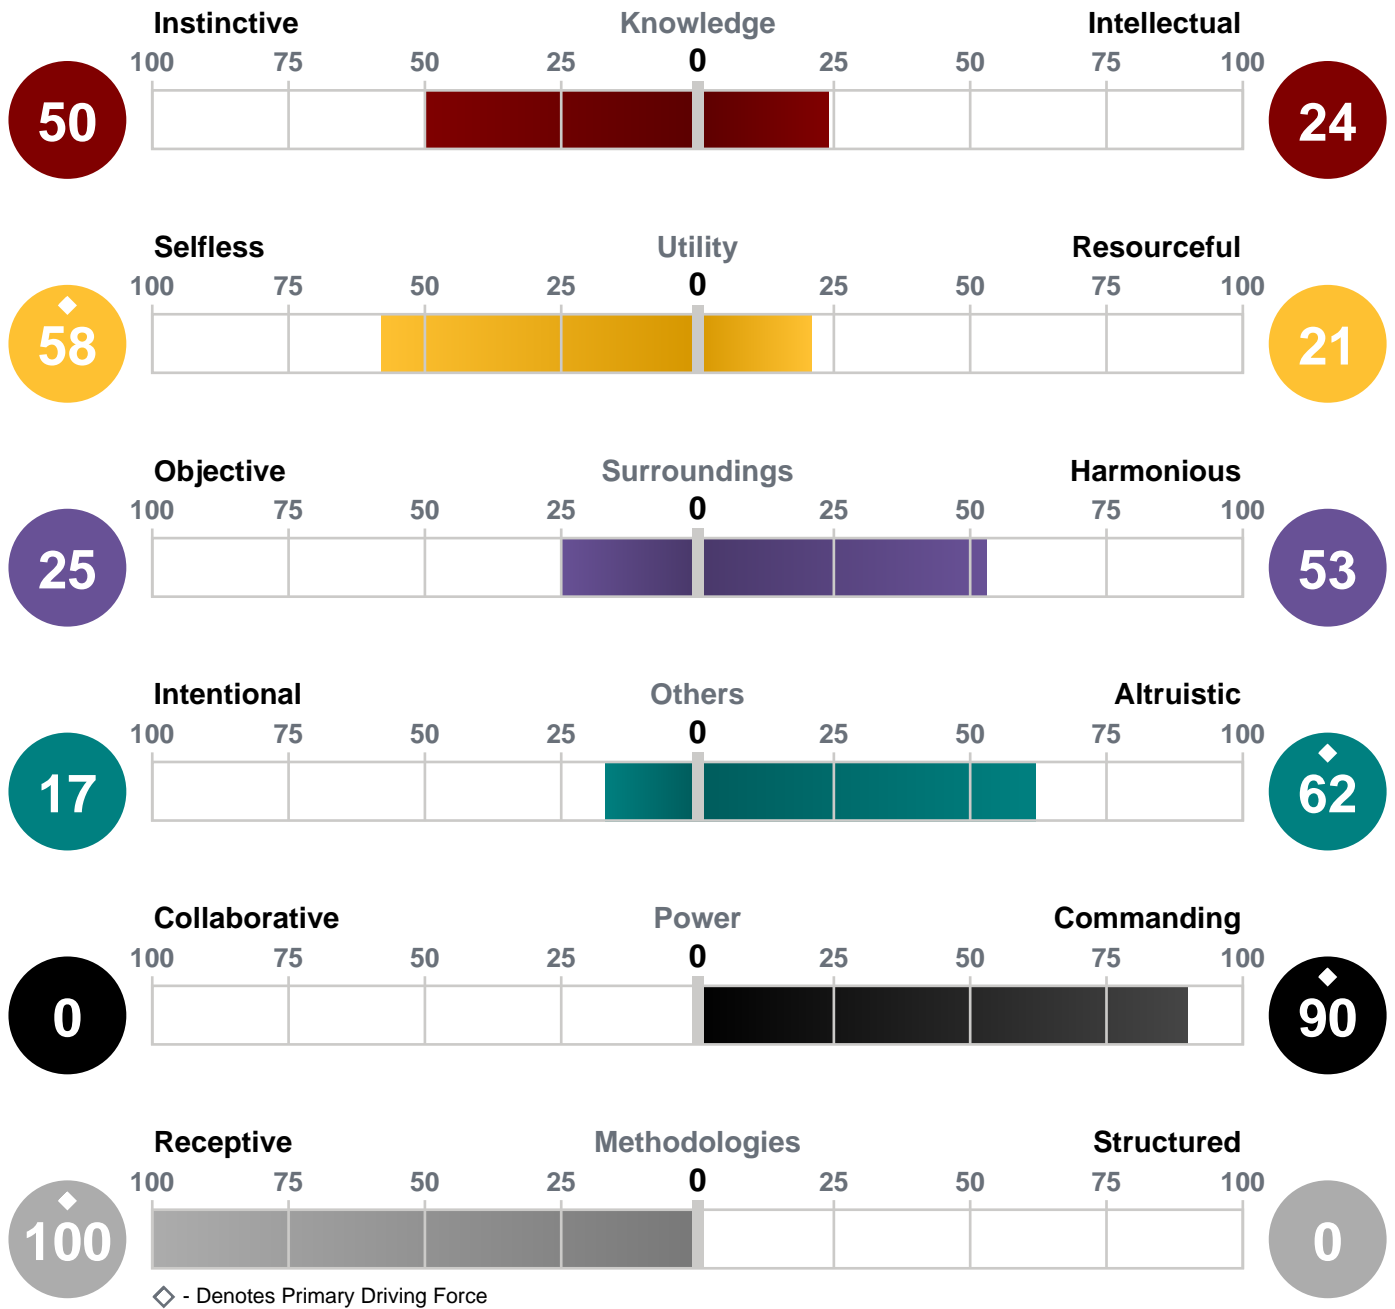

- 1st Standard Deviation - * 68% of the population falls within the shaded area.
 - 2nd Standard Deviation
 - 3rd Standard Deviation
 - national mean
 ★ - your score

Mainstream - one standard deviation of the national mean
Passionate - two standard deviations above the national mean
Indifferent - two standard deviations below the national mean
Extreme - three standard deviations from the national mean

Introduction Integrating Behaviors and Driving Forces Section

The ultimate power behind increasing job satisfaction and performance comes from the blending of your behaviors and driving forces. Each individually is powerful in order to modify your actions, but the synergy of blending the two moves you to a whole new level.

In this section you will find:

- Potential Behavioral and Motivational Strengths
- Potential Behavioral and Motivational Conflict
- Ideal Environment
- Keys to Motivating
- Keys to Managing

Introduction Emotional Intelligence Section

The Emotional Quotient™ report looks at a person's emotional intelligence, which is the ability to sense, understand and effectively apply the power and acumen of emotions to facilitate higher levels of collaboration and productivity. The report was designed to provide insight into two broad areas: Intrapersonal and Interpersonal emotional intelligence.

Research shows that successful leaders and superior performers have well developed emotional intelligence skills. This makes it possible for them to work well with a wide variety of people and to respond effectively to the rapidly changing conditions in the business world. In fact, a person's (EQ) emotional intelligence may be a better predictor of success performance than intelligence (IQ).

This report measures five dimensions of emotional intelligence:

Intrapersonal emotional intelligence

What goes on inside of you as you experience day-to-day events.

Self-Awareness is the ability to recognize and understand your moods, emotions and drives, as well as their effect on others.

Self Regulation is your ability to control or redirect disruptive impulses and moods and the propensity to suspend judgment to think before acting.

Motivation is a passion to work for reasons that go beyond money or status and a propensity to pursue goals with energy and persistence.

Interpersonal emotional intelligence

What goes on between you and others.

Empathy is your ability to understand the emotional makeup of other people.

Social Skills is a proficiency in managing relationships and building networks.

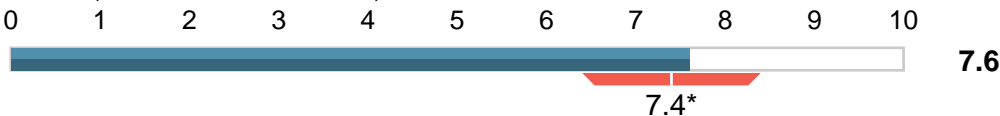

Is the report 100% true? Yes, no and maybe. We are only measuring emotional intelligence. We only report statements from areas in which tendencies are shown. To improve accuracy, feel free to make notes or edit the report regarding any statement from the report that may or may not apply, but only after checking with friends or colleagues to see if they agree.

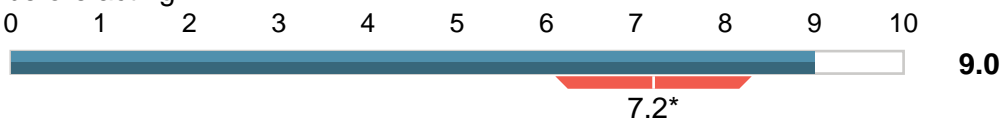

Emotional Quotient Assessment Results

The Emotional Quotient (EQ) is a measure of your ability to sense, understand, and effectively apply the power and acumen of your emotions and the emotions of others in order to facilitate high levels of collaboration and productivity. Your overall score on the Emotional Quotient Assessment indicates your level of overall emotional intelligence. The higher the number, the more emotionally intelligent you are. If your goal is to raise your EQ, the components on which you have scored the lowest should be the focus of your development.

1. SELF-AWARENESS - The ability to recognize and understand your moods, emotions and drives, as well as their effect on others.

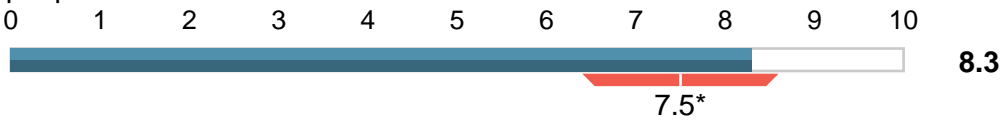

2. SELF-REGULATION - The ability to control or redirect disruptive impulses and moods and the propensity to suspend judgment and think before acting.

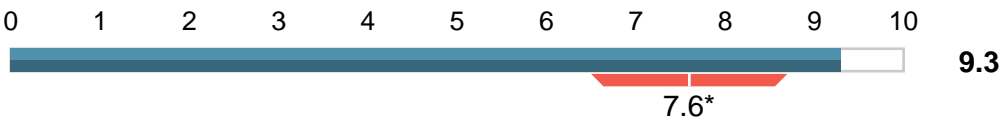

3. MOTIVATION - A passion to work for reasons that go beyond money or status, and a propensity to pursue goals with energy and persistence.

4. EMPATHY - The ability to understand the emotional makeup of other people.

5. SOCIAL SKILLS - A proficiency in managing relationships and building networks.

* 68% of the population falls within the shaded area.

Introduction

Blending Behaviors, Driving Forces and EQ for Success

Maximizing the effectiveness of one's behavioral style can be a difficult maze to navigate in the workplace, especially in situations where "behavioral labels" are assigned. Often a team will have multiple people with the same behavioral styles faced with the same situation, yet they come across differently.

For years, TTI has educated the corporate world on behaviors, or the "how" of people's actions; meanwhile, driving forces is the "why" they do what they do. This has explained the difference in actions for decades. However, recent research has led to the discovery of people with similar behaviors and driving forces, yet they still respond differently to situations, especially when the situations are emotionally charged.

Why is this? The answer is often found within a person's Emotional Intelligence. Understanding a person's EQ and applying this information to behaviors and driving forces can not only expand the working language and communication of an organization, but can help an individual successfully navigate the workplace maze and feel a sense of accomplishment and reward from doing so.
